

RELIABLE EQUIPMENT & SERVICE CO., INC.

REL-LTW

LINEMAN'S TRIPLE WRENCH

The **REL-LTW** ratcheting triple square wrench will install or remove the three most common fasteners on utility poles, lag bolts, "C" clamps, and suspension bolts with ease.

The bolt thru design, allows bolts to pass entirely through the assembly, so nuts can be tightened over any threaded length.

The reversible ratchet mechanism, heavy duty lightweight construction, 3-in-1 combination socket, and 12 inch comfort grip handle eliminate the need for multiple wrenches and sockets.

Weight: 2.25 lbs. Length: 13.25" O.A.L.
