

2890-20 - M18™ JOBSITE RADIO

Durable metal speaker grills and shock absorbing end caps protect from drops and other harmful jobsite conditions while integrated handles allow for easy transport and storage. Listening options include a digital processor and signal clarity or a 3.5mm aux jack for wired playback. A weather-sealed auxiliary compartment protects devices and houses a 2.1A USB charging port. Powered by all M18™ REDLITHIUM™ Batteries or A/C power.

2590-20 - M12™ CORDLESS RADIO

At only 10-1/2" and 3.5 lbs, the M12™ Cordless Radio is up to 10 times smaller than existing job site radios. Delivers the highest reception and signal clarity in the industry. Features premium weatherproof aluminum speakers that produce a rich, full sound and a built in weather sealed MP3 compartment to protect MP3 players and other audio devices connected to the docking portal. Backed by legendary Milwaukee durability, a shock absorbing ABS polymer and steel construction protects internal components from weather and abusive job site conditions.

2792-20 - M18™ RADIO/CHARGER

M18™ Jobsite Radio/Charger features a Bluetooth® receiver so you can stream rich, full sound wirelessly from over 100 feet away. Its unique battery charger allows you to charge any M18™ battery without sacrificing reception or sound quality. For added versatility, a high-power USB port allows you to charge most portable electronic devices over 50% faster than any competitor. The lightweight, high-strength design includes a reinforced roll cage for protection from weather and abusive jobsite conditions. Large on-board, weather-sealed storage compartment to protect your small belongings and smart phones. A 16" auxiliary input cord and 2 AAA batteries are included.
