PLATFORM TRIPODS AND RAILINGS

Epoxiglas[®] construction adds belt-on capability and restraining guide for lineworkers.

Tripod Railings - fit Insulated and Standard Aerial models as listed. (See photo on previous page)

PART	DESCRIPTION	WT.
T402-1195	Tripod for 42" or 4' Standard Model	9 lb.

Platform Railings - fit Insulated and Standard Aerial models as listed. (See photo on previous page)

PART	DESCRIPTION	WT.
C402-0023	Railing for all 6' Chance Platforms	15 lb.
C402-0024	Railing for all 8' Chance Platforms	17 lb.

PLATFORM MOUNTING ATTACHMENTS

Fixed Pole Mount

PART	DESCRIPTION	WT.
M4901-10W	Fixed Pole Mount	9 lb.

Fixed Tower Mount - For attachment to tower legs 3-1/2" x 3-1/2" to 8" x 8".

PART	DESCRIPTION	WT.
M4901-21	Fixed Tower Mount	10 lb.

Pivot Mounts for Poles - Handwheel on top and interlocking teeth on two pivot plates provide simple, sure adjustment to work angle needed. Two sizes vary in height to fit all applicable platforms as listed.

Pivot range permits 140° adjustment in increments of approximately 9° per tooth on matching plates. Turning handle raises and lowers upper plate; stainless-steel guide pin keeps plates aligned. Groove in upper plate centers on rib in base to assure teeth engagement at every angle setting.

PART	DESCRIPTION	WT.
C402-1164	Pivot Base for 42" or 4' Platform	28-1/4 lb.
C402-1173	Pivot Base for 6' or 8' Platform	29-1/4 lb.

M4901-10W - 30" chain binder with self-locking handwheel and one hinge pin.

M4901-21 - 30" chain binder with self-locking handwheel.

Pivot Base includes two 30" chain binders with self-locking handwheels and one hinge pin.
