

Tooling solutions for the power utility industry.

TEMPORARY GROUND ROD

The Chance Screw Ground Rod provides a temporary ground where a system ground is not available. When installed, the 6' spiraled ground rod develops less resistance than straight ground rods. The reusable Ground Rod is copper clad. The helix (spiral), handle, and wing nut are bronze.

PART	DESCRIPTION	WT.
G3370	Screw Ground Rod	7.75 lb.

Truck-grounding set available, ask your Reliable representative for information.

TRUCK SAFETY BARRICADE

This kit keeps workers and on-lookers away from the truck when the truck is being used in proximity of energized conductors. Six rods made of bright-orange Epoxirod[®] provide a 6-foot air space around the entire perimeter of the truck. The entire kit requires less storage than traffic cones and can be quickly installed and removed at each job site.

PART	DESCRIPTION	WT.
T306-0006	Truck Safety Barricade	21 lb.

Includes six pieces of 3" long steel tubing (to be welded to truck by the customer) 150' of yellow rope, and a canvas storage bag.
