

Tooling solutions for the power utility industry.

RELIABLE - RC SERIES - RATCHETING CABLE CUTTERS

RC1000-A

RC750H - Designed primarily for cutting ASCR cable up to 556 with the flexibility to cut power cable to 750 MCM. Length: 18 in., Weight: 4 lbs.

RC1000-A - Designed to cut power cable to 1000 MCM with ease and speed. Length: 19.5 in., Weight: 4 lbs.

The **RC1000-A** and **RC750H** combine unique design with quality construction to afford speed, ease of use, and safety to the operator.

FEATURES:

- ✓ Extra heavy duty "C" Jaw design & simple long-life ratcheting mechanism.
- ✓ Thumb slide release allows rapid opening or closing.
- ✓ Single lever operation allows easy switch from opening to closing.
- ✓ Reinforced fiberglass handles with a protective polyvinylchloride coating.
- ✓ Practically half the size of standard ratchet cutters at less than half the weight.
- ✓ The large cutting capacity of these tools requires less than 50% of the ratchet opening of standard tools.

REL-35

REL-750

RELIABLE EQUIPMENT - REL-35 & REL-750 - RATCHET CABLE CUTTERS

Designed to cut copper and aluminum cable with the convenience of single handed operation. These models feature a full ratcheting cycle and release in all cutting positions. Handle locks in closed position for easy storage and transportation. H/D molded plastic handles feature ergo-designs to provide maximum leverage.

Model	Weight	Length	Span	Cu. / Alum.	Hard Drn. Cu.
REL-35	1.5 lbs.	10"	5.5"	1.25"	500 MCM
REL-750	2 lbs.	9"	6.5"	1.75"	750 MCM

CABLE CUTTERS

8690 FSK - SOFT CABLE CUTTER

2" Capacity, Jaw keeper prevents jaws from spreading while under heavy load. Cuts copper and aluminum communications and power cable in sizes up to 2", including rubber or lead covered cable. Improved H/D jaw design, ratchet mechanism provides up to 5 times mechanical advantage over manual cutters. Cuts all types of copper and aluminum cables up to 2500 MCM.

8790 CS - RATCHET TYPE, SOFT CABLE CUTTERS

Jaws with shear-cut blades, Special pivoting handle allows cutterhead to be opened to maximum width independent of handle position. Cuts copper and aluminum, power and communications cable. Designed to cut conductors with large insulation. Max. handle spread of 22" for working in confined spaces. Increased mechanical advantage over manual cutters.

8690 FH - RATCHET TYPE, HARD CABLE CUTTER

1-3/16" Capacity, Jaw keeper prevents jaws from spreading while under heavy load. Shear-cut blades. Ratchet and chain increase cutting pressure as handles open and close. Cuts hard cable, ACSR, ACAR, and self-supporting telephone cable, with minimal distortion, Moderate pressure needed to open and close handles, Can be used effectively in confined spaces. Increased mechanical advantage over manual cutters.

8690 CK - RATCHET TYPE, GUY STRAND CUTTER

7/16" Capacity, Notched shear-cut blades hold material firmly, while ratchet and chain produce easy, progressive cuts. Cuts EHS guy strand, mild steel rods and bolts, and similar materials. Makes clean, square cuts with minimal distortion. Increased mechanical advantage over manual cutters.

8690 TN - RATCHET TYPE, WIRE ROPE CUTTER

3/4" Capacity, Ratchet-Type jaws with notched shear-cut blades hold and lock material in place. Cuts aircraft cable, EHS guy strand, wire rope, and hard S.S. cable. Cuts all strands with minimal crushing or distortion. Increased mechanical advantage over manual cutters.

Part	Weight	Length	Capacity	Replacement
8690 FSK	3-1/2 lbs.	27-1/2"	2" CU/AL	8613FSK
8790 CS	15 lbs.	27-1/2"	3" CU/AL	8713CS
8690 FH	10-1/2 lbs.	29-1/4"	1-3/16" ACSR, ACAR	8613FH
8690 CK	8-3/4 lbs.	28"	7/16" Guy Strand	8618CK
8690 TN	13 lbs.	36"	3/4" Aircraft / Hard SS Cable	8613TN
