

Tooling solutions for the power utility industry.

JAMESON Adapter System

Adapter attaches head to ferrule

Ferrule with locking spring

Fiberglass pole

Fiberglass Pruner Handles/Layup Sticks

Rugged fiberglass tree pruning handles will not splinter, spear back or absorb moisture. They have high dielectric properties and offer surface protection from harsh ultra violet deterioration.

Offering two styles. The **JE Series** (1-1/8" O.D.) has a non-moisture wicking FOAM CORE and the **FG Series** (1 1/4" O.D.) has a high strength HOLLOW construction.

Pruner handles will interchange with all standard tree trimmer heads simply by using the appropriate adapter system.

This adapter system is an ORIGINAL CONCEPT that enables the interchange of most pruner heads and pole saws with these pruner handles. Eliminate the large and heavy 1-3/4" wood pole by adapting to a lighter and stronger fiberglass pole.

These pruner handles will interchange with all common handle accessories . . . This versatility makes the these handles IDEAL FOR ALL INDUSTRIES.

JE Series	FG Series	Description
JE-3 Foam Core	FG-3 Hollow	Extension section 3' length
JE-6 Foam Core	FG-6 Hollow	Extension section 6' length
JE-8 Foam Core	FG-8 Hollow	Extension section 8' length

Note: Above lengths are standard. Longer lengths to 12' and one piece Base Poles are available.

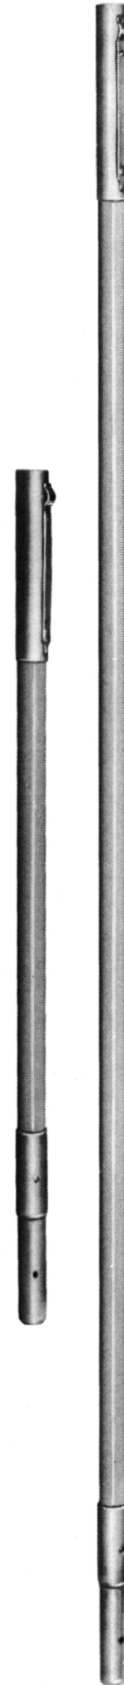

Pole Adapters (for use with)

- PHA#9 - #9 Jamison Pruner
- PHA#10 - PS #2 Pole Saw
- PHA#11 - Smith #11 Pruner & 20B head
- PHA#12 - #12 Pruner
