

Tooling solutions for the power utility industry.

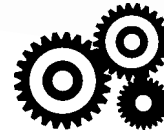

REL-CR - COLLAPSIBLE REEL

Reliable's REL-CR Collapsible Reel was designed to take up wire in neat, compact coils. The reel attaches to any 2-7/16" winch shaft by means of a bayonet type socket. Turning the quick acting handle will allow you to collapse the outer rim of the reel, allowing the coil of wire to be quickly removed. Reel arms and support spiders are made from heavy duty lightweight aluminum.

SPECIFICATIONS

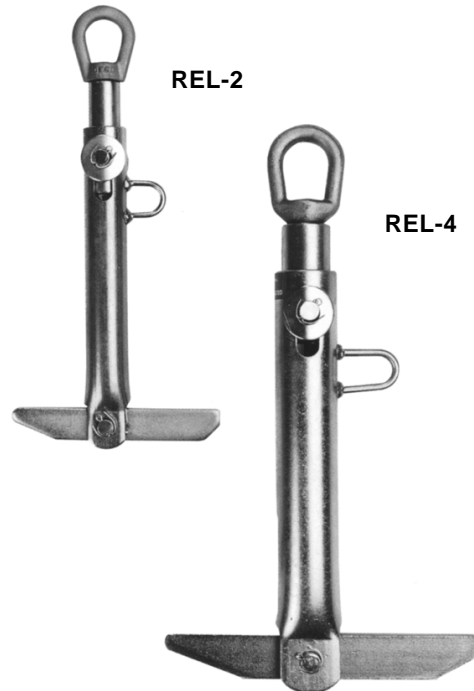

Pulling Force:	4,000 lbs. Maximum
Capacity:	1,600' of 1/4" wire rope or 200 lbs. of wire or cable.
Drum Dia. :	20 inches
Overall Dia. :	28 inches
Throat :	6 inches (between flanges)
Winch Shaft :	2-7/16 inches Diameter

RELIABLE - REEL LIFTER SERIES

The REL-2 and REL-4 Reel Lifters offer an affordable, easy to use solution to most reel handling and payout applications. When laying underground cable in the field, simply suspend the reel over the trench and go. Allow any piece of lifting equipment to become a re-reeling machine.

The REL-Series of Reel Lifters lightweight design and ease of use will allow one person to do the job of three or four with a capacity up to 4,000 lbs. In the warehouse, one person can lift, stack and spin heavy reels for payout operations.

SPECIFICATIONS

MODEL	ARBOR	CAPACITY
REL- 2	2" - 4"	2,000 LBS.
REL- 4	3" - 6"	4,000 LBS.
