## ABS PLASTIC FLAGGER'S HELPERS™

This popular all-plastic flagger's helper has STOP/SLOW legend printed on opposite sides of the octagonal plastic sign. Includes permanently attached 2"x12" black plastic handle and 2" x 60" detachable, black plastic staff with safety-tip. Disconnect by two spring-clip pins, top inserts into staff.

FH-2472-EG/ABS - Engineer Grade refl. on 24" sign.
FH-2472-HI/ABS - Hi-Intensity refl. on a 24" sign.

## RUBBER WHEEL CHOCK

Designed for maximum traction on practically any surface, wet or dry.

Metal "O" Hook imbedded in back.

Fluted design causes downward pressure to lock chock into place.

Available with 12 ft. of jack chain.

Dimensions: Height 6", Depth 8", Length 10"

WC-47	Wheel Chock (No Chain)	9 lb.
WC-47CH	Wheel Chock with Chain	12 lb.

## SUPER-FLEX™ COMPACT STAND FOR ROLL-UP SIGNS

This H/D stand utilizes the Super-Flex™ adjustable fiberglass leaf-spring with short half mast for Roll-up C-Signs™. Quickly sets-up and adjusts height and wind deflection without tools.

The C-202 has galvanized steel two-position telescoping legs with non-skid rubber leg-tips. Stand folds compact for easy storage.

The C-202 is ideal for open road two or four lane highways with wind conditions to 70 mph with a 36" Roll-up C-Sign™ and 65 mph with a 48" Roll-up C-Sign™.

Stand may be ordered individually or as a complete Warning Kit™ with mesh, vinyl, or reflective sign, storage case with printed legend, and three 18" x 18" warning flags.

## PORTABLE ARROW LIGHT (55"x13")

This hi-visibility Arrow is ideal for use on utility, construction, and tree maintenance vehicles.

Left, Right or Double Arrows and Caution Bar. Pre-wired for 12-volt DC system (Wt. 8 lbs.)
