

Tooling solutions for the power utility industry.

LINEMAN'S SAFETY RAINSUIT

Salisbury's flame resistant heavy duty rain gear is designed with the lineman and electrical worker's comfort in mind.

FEATURES

The polyurethane on nylon fabric is flame resistant and anti-static! The jacket is lined with flame resistant "FR" cotton for comfort as well as safety. Extra light weight construction resists dirt, oils, and abrasion.

All seams are double stitched and sealed, making the suits fully water proof. Safety yellow body with 2" wide silver 360° reflective stripes on upper arms and at the waist for increased visibility. The corduroy collar reduces discomfort caused by static discharge when working with high voltage. Jacket has non-metallic snaps and storm fly closure.

Lineman's double bib overalls feature adjustable 100% elastic shoulder straps, snap fly, and non-metallic hardware.

Oversized snap-on hood fits over hard hat.

Style	Garment	Weight
P502J	Jacket	1 lb. 5 oz.
P503-OV	Overall	10 oz.
P504H	Snap-on hood	2 oz.

Order each item separately! Jacket, overalls and hood. Suits are stocked in sizes Small, Medium, Large, X-Large, XX-Large and XXX-Large.

Other styles and brands are available. Consult your Reliable representative for further information.
