

**HUSKIE SP-SERIES****HUSKIE - SP-SERIES - HYDRAULIC OPERATED CUTTING HEADS**

These remote head units connect to any 10,000 psi, high pressure, hydraulic pumping system. Choose from seven different models of production cutters, to cut cost and effort. A 3/8" screw-type male coupler is supplied with each tool.

The Huskie remote cutters have a hinged head which can be opened for easy cable or bar insertion. The movable blade advances in a shear fashion, to cut the material cleanly.

When the cutting pressure is relieved, an internal ram spring retracts the blade. The guillotine cutting style was chosen over scissor type cutting because of its powerful output force, larger cable capacities, compact size and reliability.

**All tools can be used under water: Consult Reliable for specific applications.**

Model	SP-20	SP-24	SP-32	SP-40	SP-55
Output	4.4 ton	7.8 ton	20 ton	6.28 ton	13.12 ton
Weight	3 lbs.	6 lbs.	21 lbs.	8.5 lbs.	20 lbs
Length	8"	11"	14"	12"	17"
Wire Ropes	5/8"	7/8"	1-1/4"	Do not cut	1"
Soft Steel Bolts	9/16"	3/4"	1-1/4"	5/8"	7/8"

**SP-24CC****SP-24CC - EHS GUY WIRE CUTTER****Features:**

- \* Lightweight and portable
- \* Works in any position
- \* Anvil blades eliminate jamming.
- \* Blades are easily replaced in the field.

Model	SP-24CC
Output	7.4 ton
Weight	6 lbs.
Length	11"
EHS Guy Wire	9/16"
Anchor Rod	5/8"
Ground Rod	5/8"
Grade 80 Chain	1/4"

This new hydraulic cutter has been specially engineered to cut the toughest EHS guy wire, ground, and anchor rods.

The anvil style center cut blades eliminate jamming problems common to shear style cutters, and the blades are easily replaced in the field.

The tools are made of high grade steel. All tools are black zinc oxide coated to help reduce corrosion. A flip top latch opens the tool jaw to easily accept cables and wires.
