REL-1500 - ROBO CUTTER

12 Volt - Battery Powered Cable Cutter

Rechargeable battery operated cutter for hard drawn Copper up to 750 MCM and Aluminum up to 1,500 MCM. Compact design fits into tight areas and cuts clean with minimal cable distortion.

Features:

- * **The powerful 12-V gear reduction motor activates with just the squeeze of the trigger.**
- * **Operates in forward or reverse.**
- * **Built-in circuit breaker will momentarily disable the tool if accidentally overloaded.**
- * **H/D movable blade will pull through even the toughest copper.**

Specifications:

Weight:	6 lbs. w/ Battery
Length:	14.5"
Cutting Capacities:	
Copper	750 MCM
Aluminum	1,500 MCM

Tooling solutions for the power utility industry.

REC-50U ROBO* SLICE™

14.4 Volt - Battery Powered Cable Cutter

Designed with a powerful gear reduction motor that pulls a moveable blade through the toughest URD cables in a limited amount of space. Cuts are clean with minimal cable distortion. The blade has wide gear teeth for extra power and full cutting traction. Impact resistant springs are attached on both ends of the blade to reduce damage if impact occurs.

The ROBO*SLICE comfortably fits into the lineman's gloved hand. Repetitive ratcheting movement is eliminated. Just a squeeze of the rocker arm trigger is all it takes to make a cut. As a result, the risk of sprains, strains, and lost time due to muscle related injuries can be significantly reduced.

**DO NOT CUT
ACSR**

Specifications:

Weight: 6 lbs. w/ Battery

Size: 14.5" x 4" x 4.5"

Kit Includes:

- 1 Battery Powered Tool
- 1 Carrying Case
- 2 BP-70R Batteries
- 1 CH-3TR 15 Min. AC Charger

Cutting Estimates:	BP-70R	BP250R
1,000 MCM	35	105
2" Aluminum (3,000 MCM Bare)	30	90

REC-54 ROBO* SLICE™

Battery Powered Ratchet-Type Cutter

Heavy Duty cable cutter. For overhead work, the linemen will appreciate the ease of one-hand operation. The powerful gear drives allow the operator to cut through the toughest cables with just the pull of the trigger. It features a lock-out switch for reversing the blade with the same hands.

***This tool will not cut 477 Pelican, 4/0 Penguin, or 3/0 Pigeon ACSR cables.**

Cutting Estimates:	BP-70I	BP-250RI
750 MCM CU	35	105
ACSR 477*	50	150

Specifications:

Weight: 7.2 lbs. w/ Battery

Length: 16"

Cutting Capacities:

Copper 750 MCM

Aluminum 2-1/8" O.D. (3,000 MCM Bare)

ACSR 477

Kit Includes:

- 1 Battery Powered Tool
- 1 Carrying Case
- 2 BP-70R Batteries
- 1 CH-3TR 15 Min. AC Charger

TO ORDER CALL: 800-966-3530 OR FAX: 215-357-9193

Tooling solutions for the power utility industry.

REC-54AC ROBO SLICE™

Battery Powered Ratchet-Type Cutter

The REC-54AC was designed to cut aluminum and Stranded or Flex copper cables. The jaws will accept a maximum of 1,000 MCM copper and aluminum up to 2-1/8" O.D. The operation of this tool is the same as the REC-54, but it has sharper blades for cutting only non-ferrous materials.

Do not cut steel with this model, or blade damage will occur.

Cutting Estimates:	BP-70I	BP-250RI
750 MCM CU	45	135
2-1/8" AL	30	90

Specifications:

Weight: 7.2 lbs. w/ Battery
Length: 16"
Cutting Capacities:
Copper 1,000 MCM
Aluminum 2-1/8" O.D. (3,000 MCM Bare)
ACSR DO NOT CUT

- 1 Carrying Case
- 2 BP-70R Batteries
- 1 CH-3TR 15 Min. AC Charger

REC-S85CCP ROBO SLICE™

Battery Powered Ratchet-Type Cutter

3.35" Jaw Opening

Designed to cleanly cut telecommunication switchboard cable. It has one finger trigger action and allows for one man crew operation.

The gear driven blade has both forward and reverse action with one hand operation for ease of use and maneuverability. It is a heavy duty cable cutter for communication cables up to 3-1/4" O.D. A gear reduction motor pulls the moveable blade through communication cable to provide a cut with minimal cable distortion.

Specifications:

Weight: 6 lbs. w/ Battery
Size: 4" x 14.5" x 13"
Cutting Capacities:
Telecomm. Cable Only!

Cutting Estimates:	BP-70I	BP-250RI
3" Telecomm. Cable	50	150

**DO NOT CUT

REC-30Y ROBO* CUT™

Battery Powered Scissor-Type Cutter 6 Ton, 1-3/16" Jaw Opening

Designed to make a clean cut with a minimal amount of cable distortion, allowing for easy connector installation on cables. The head can be rotated 180° for greater maneuverability in working quarters. The keeper plate prevents jaws from spreading apart when cutting ACSR.

This tool will not cut 4/0 Penguin or 3/0 Pigeon ACSR cables.

Specification:

Weight: 10.5 lbs. w/ Battery

Size: 15" x 14" x 2.5"

Cutting Capacities:

ACSR 336 MCM

(Avoid extra thick center strands)

Copper 750 MCM

Aluminum 1.18" O.D. (1,000 MCM Bare)

Guy Wire 3/8" Max.

500 MCM CU	60	180
750 MCM CU	50	150

REC - 34YC ROBO CUT™

Battery Powered Scissor-Type Cutter 6Ton, 1-3/8" Jaw Opening

This tool is similar to the REC-30Y, but has a slightly larger jaw opening without a "keeper" guard. Its sharp blades are rated for copper and aluminum cables only.

The open "C" type jaw is very convenient for the operator when reaching out to cut cable. Cuts are slightly distorted but cables can still be easily sleeved. Once severed, the cutter blades can be opened by the push of the release trigger located below the activation trigger.

Specifications:

Weight: 10.5 lbs. w/ Battery

Size: 15" x 14" x 2.5"

Cutting Capacities:

Copper 800 MCM

Aluminum 1.4" O.D. (1,400 MCM Bare)

ACSR DO NOT CUT STEEL

Tooling solutions for the power utility industry.

REC-60YC ROBO CUT™

Battery Powered Scissor -Type Cutter 6 Ton, 2-1/2" Jaw Opening

The extra wide jaws make cutting the larger diameter underground cables easier.

The maximum size copper cable that can be cut is 500 MCM. Larger cables will simply cause the cutter to bypass, which is a built-in overload safety device to prevent damage to the tool.

The large jaws can be placed over cables that lie flat on the ground and the cables will be scooped up as the cutting jaws are closed. All cuts are clean so that there is minimal cable distortion.

Specifications:

Weight: 10.5 lbs. w/ Battery

Size: 15" x 14" x 2.5"

Cutting Capacities:

AL 2.5" max O.D. (3,500 MCM Bare)

CU 500 MCM

DO NOT CUT STEEL

500 MCM CU	60	180

REC-S20 ROBO CUT™

6.6 Ton Battery Powered Cutter

Designed to cut the toughest steel used in construction today. It can replace an entire tool kit, including several conventional bolt cutters, backsaws, acetylene torches, and cable cutters.

The specially designed flip-top latch and rotating head provide ease of use and maneuverability in tight working quarters.

The unit has an overload bypass which will "kick out" when tool is attempting to cut cables beyond its capacities.

Specifications:

Weight: 9 lbs. w/ Battery

Size: 11" x 13" x 2.5"

Cutting Capacities:

Wire Rope 5/8"

Rebar (Sc 40) 1/2"

Rebar (Sc 60) 3/8"

Ground Rod 1/2"

ACSR Cable 477 MCM

Guy Wire 7/16"

- 1 CH-3TR 15 Min. AC Charger

REC-S40 ROBO* CUT™ 6 Ton Battery Powered Cutter

Our ROBO* cut is ideal for arial bucket work and trench operations.

This cutter is made for one handed operation. Simply remove the latch pin, place over cable, reinsert pin, and cut.

A built in bypass will pop off if the material is beyond the cutter's capacity.

It is not recommended to cut hardened steel because blades will become damaged.

The REC-S40 blades are interchangeable with our standard hand operated tool.

Cutting Capacities:

Soft Steel Bolts	5/8"
Rebar & Grnd. Rod	5/8"
ACSR	795
Standard Guy Wire	5/8"
Wire Rope	3/4"
EHS Guy Wire	DO NOT CUT

Specifications:

Length 15.75"
Height 14.25"
Weight 10 lbs.

Kit Includes:

- 1 Battery Powered Tool
- 1 Carrying Case
- 2 Batteries
- Choice of a 120 Volt, 230 Volt, or 12 Volt Battery Charger.

THE GATOR™ LINE 5.5 Ton Battery Powered Cutter

Lightweight and easy to use.

Approximately 120 cuts per battery charge.

Cuts in 22 seconds.

Jaws open quickly to save time between cuts.

Jaws are specially hardened and precision ground to hold sharpness.

Cut up to 1.75" diameter Al or Cu Cable.

Cutting head rotates 330° for cutting cables in tight locations.

Pistol grip provides excellent control, comfort, and balance.
