ROBO™ CHARGERS AND ADAPTER

For ROBO™ Battery Powered Cutting and Compression Tools

CH-70DC - 12 VOLT DC CHARGER

1 hour charge time for the BP-70R and BP-70I and 3 hours for the BP-250RI. It can be plugged directly into an automotive cigarette lighter and has a built-in overload fuse protector. Although the charger is composed of a lightweight printed circuit, the battery drain on a truck's system is considerable, the engine should be running while the battery is being charged.

CH-70DC

CH-3TR - 15 MIN. QUICK CHARGE

The newest addition to the ROBO™ charger family. This 15 minute quick charge device was designed to charge the BP-70R and BP-70I battery cartridges. It will also charge the BP-250RI in 45 minutes.

CH-3TR

BP-70I

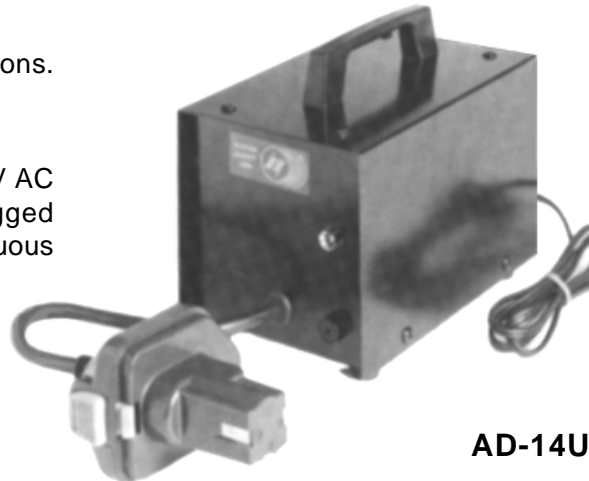

BP-70R

See next page for ROBO Battery options.

AD-14U - AC-ADAPTER

For your convenience we have a 120V AC adapter, model AD-14U. It can be plugged into an electrical outlet whenever continuous use is required.

The AD-14U cannot be used with some ROBOs. Consult your Reliable representative for more information before ordering.

AD-14U
